Environment Audit Report DE PAUL INSTITUTE OF SCIENCE AND TECHNOLOGY, ANGAMALY Report No: EA 760 2021- April

#### **About OTTOTRACTIONS**

**OTTOTRACTIONS** established in 2005, is an organization with proven track record and knowledge in the field of energy, engineering, and environmental services. They are the first Accredited Energy Auditor from Kerala for conducting Mandatory Energy Audits in Designated Consumers as per Energy Conservation Act-2001. Government of Kerala recognized and appreciated **OTTOTRACTIONS** by presenting its prestigious **"The Kerala State Energy Conservation Award 2009"** for the best performance as an Energy Auditor.

#### Acknowledgment

We were privileged to work together with the administration and staff of DE PAUL INSTITUTE OF SCIENCE AND TECHNOLOGY, Angamaly for their timely help extended to complete the audit and bringing out this report. We thank Rev. Fr. George Pottayil VC, Director; Fr. Lindo Puthuparambil VC, Director, Finance; Dr. Unny CJ, Principal and Jacob Thaliyan, Associate Professor for their advises and support during the audit.

With gratitude, we acknowledge the diligent effort and commitments of all those who have helped to bring out this report.

We also take this opportunity to thank the bona-fide efforts of team OTTOTRACTIONS for unstinted support in carrying out this audit.

We thank our consultants, engineers and backup staff for their dedication to bring this report.

Thank you.

### Preface

Educational institutions always had an important leadership role in society in demonstrating types of changes that used to occur with respect to the prime issues of the time. All around the world, educational institutions are taking steps to declare themselves the next carbon neutral school as a part of the global trend of becoming sustainable. In 2007, Victoria University School of Architecture and Design declared themselves the first carbon neutral campus in the world through the purchase of carbon credits. This concept is not a sustainable model as it does not guarantee the capture of carbon forever and also it is expensive.

The potential for any academic institution- (may be a school in a remote village or a University in an urban setting) - to become the driver for change is huge. Its role of practicing leadership in its community can be utilized to encourage and influence carbon neutral living.

The biggest factors that contribute towards emission are Energy, Transportation and Waste. Any reduction in the carbon emission by the above sectors, starts with the behavioral changes (Low cost) and/or technological investments (High cost). In order to make these changes, the students are to be educated properly on the concept of carbon neutral campuses and methods to reduce it.

In India, the concept of carbon neutral campuses is gaining momentum. Green Audit in Campuses measures the amount of Green House Gases (GHG) emissions produced as a result of its operations through an accounting like inventory of all the sources of GHGs and carbon sequestration in the school campus. Based on this, the total carbon footprint is estimated. Measures are recommended to bring down the carbon footprint of the campus and to make it a carbon neutral campus.

## INTRODUCTION

Ottotractions was asked by the DE PAUL INSTITUTE OF SCIENCE AND TECHNOLOGY, ANGAMALY to carry out an environmental audit of their campus building.

Each section contains recommendations for improvements relating to environmental issues, which are consolidated in the action plan in section 4.

## BACKGROUND

De Paul Institute of Science & Technology (DiST), Angamali, is an ISO 9001:2015 Certified professional college run by De Paul Education Trust and owned by Marymatha Province of Vincentian Congregation. Education is one of the most important areas of its activities. The Vincentians hold aloft the sublime values of justice, peace and love and aims at creating a new generation with a difference. The students must prove not only their academic excellence but also show a deep commitment to the society they live in. De Paul Institute of Science & Technology (DiST) provides a comprehensive range of academics like Media

Courses, Courses in Computer science, Management course, MSW and BSW (Social Work Department) and is one among the leading MBA colleges in Kerala. The college is situated in an eco-friendly and academic-friendly atmosphere amidst fast developing industrial and business town and sylvan surroundings. The college is located in 2.45 acres of land with a total built up area 10,471.66 m<sup>2</sup>.

Occupancy Details		
Particulars	2020-21

Total student strength of the campus is 821. For calculating per capita carbon emission estimation, the student strength is taken into account.

# **ENVIRONMENTAL ISSUES**

This section is broken down into the following different areas: waste, water, energy, resource and materials use and procurement. A final 'other' section is also included for any additional issues.

#### 1.1. Waste

The way communities generate and manage their waste plays an absolutely key role in their ability to use resources efficiently. All buildings contain bins for both general waste and mixed recyclables

(plastic bottles, card, cans and paper). On average each floor in the buildings areas has its own general waste bin and one recycling bin. When the bins are emptied by the cleaning staff. Bins are marked and kept in different colors for identification, however in some locations throughout the building it was unclear which bins were for which waste streams.

There are four basic ways in which campus can do plastic recycling collection services for plastic bottles and containers – curbside, drop-off, buy-back or deposit/refund programs. The first, and most widely accessible, collection method is curbside collection of recyclables. The campus is installed bins to collect plastic bottles and single use plastics. SGC has given a proper awareness on plastic waste problems and they are discouraging the students or teachers to carry plastics to the campus. The ECO club is very active in the campus and do a verity of programs to build awareness on waste management. The reports on different activities of the club is attached as technical supplement of this report.

The major concern of waste management will be focused on the solid waste produced by the campus. Solid wastes produced in the campus are mainly of three types, food waste, paper waste, and plastic waste. Food wastes produced in the campus are mainly by two means. The vegetable wastes produced in the kitchen during the food preparation. The food waste produced by the students and staffs of the campus after the consumption of meals. The degradable waste is treated in the biogas plant, the biogas generated is used in the kitchen. A state of art sewerage treatment plant is installed in the campus

All the activities including energy consumption and waste management have their equivalent carbon emission and they positively contribute to the carbon footprint of the campus. Carbon sequestration is the reverse process, at which the emitted carbon dioxide will get

sequestrated according to the type of carbon sequestration employed. Even though there are many natural sequestration processes are involved in a campus, the major type of sequestration among them is the carbon sequestration by trees.

Trees sequestrate carbon dioxide through the biochemical process of photosynthesis and it is stored as carbon in their trunk, branches, leaves and roots. The amount of carbon sequestrated by a tree can be calculated by different methods. In this study, the volumetric approach was taken into account, thus the details including CBH (Circumference at Breast Height), height, average age, and total number of the trees, are required. Details of the trees in the campus compound are given in the Table 3.18. Detailed table is included in the technical supplement.

Carbon Sequestration

Carbon sequestration SGC	6.43

Carbon sequestrated by a tree can be found out by using different methods. Since this study is employed the volumetric approach, the calculation consists of five processes.

- Determining the total weight of the tree
- Determining the dry weight of the tree
- Determining the weight of carbon in the tree
- Determining the weight of CO<sub>2</sub> sequestrated in the tree
- Determining the weight of CO<sub>2</sub> sequestrated in the tree per year

Carbon sequestrated by each species of trees in the campus compound is given in the Table.3.19 Detailed calculation results are listed out in the tables provided in the technical supplements of 'Carbon sequestration'.

#### 3.1.1 ENERGY

#### a. Electricity

The total emission of the carbon dioxide per student is 80.47 kg per year. Emission reduction plans were prepared to bring the existing per capita carbon footprint to zero or below so as to bring the campus a carbon neutral or carbon negative campus. A renewable energy project is already implemented, ie. 70kWp solar power plant which mitigates 65.28 tCO<sub>2</sub>e in the current year. So the effective specific carbon emission per student is 90.18 kg of CO<sub>2</sub> per year only

This can be achieved in many ways but, every alternate plan must be in such a way that, it must fulfill the actual purpose of each activity that is considered.

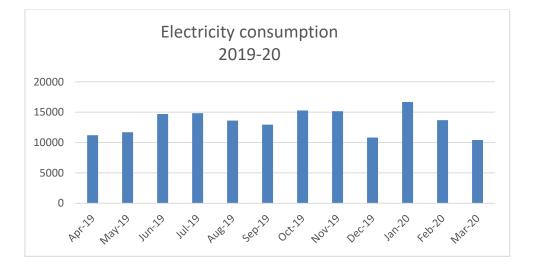

Here, three major methods are taken in to account as the plans for reducing the carbon emission of the campus.

- Resource optimisation
- Energy efficiency
- Renewable energy

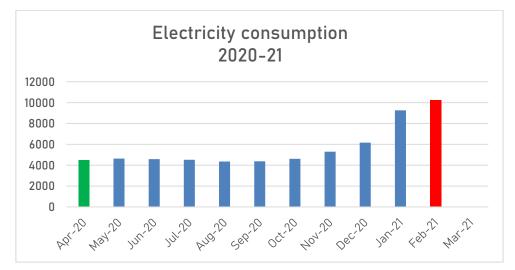

### **Electricity Consumption**

During the energy audit filed studies, 231 T-8 lamps were identified, which is considered as inefficient. 63 CFLs, 81 LED bulbs and 33 LED tubes were found during the audit. The detailed energy efficiency projects are given in the respective chapters of this report.

#### **RESOURCE OPTIMISATION**

The effective use of resources can limit its unnecessary wastage. Optimal usage of the resources (such as fuels) can save the fuel and can also reduce the carbon emission due to its consumption. This technique can be effectively implemented in the 'transportation' and 'waste' sectors of the campus.

#### WASTE MINIMISATION

Optimal utilization of paper and plastic stationaries can reduce the frequency of purchase of items. This can reduce the unnecessary wastage of money as well as the excess production of waste. In the case of food, proper food habits and housekeeping practices can optimise its usage.

Currently, SGC is taking an appreciable effort to reduce the unnecessary production of wastes. But the campus still has opportunities to reduce the generation of waste and can improve much more. Resource optimization can be effectively implemented in all type of waste generated in the campus and the campus can expect about 50% reduction the total waste produced.

#### ENERGY EFFICIENCY

Energy efficiency is the practice of reducing the energy requirements while achieving the required energy output. Energy efficiency can be effectively implemented in all the sectors of the campus.

#### FUELS FOR COOKING

The campus can install a solar water heater to rise the water temperature to a much higher level, then it has to consume only very less amount of thermal energy for preparing the same amount of food. This can make a positive benefit to the campus by saving money, energy and can reduce the carbon emission of the campus due to thermal energy consumed for cooking.

#### TRANSPORTATION

Energy efficiency of the transportation sector is mainly depended on the fuel efficiency of the vehicles used. Here mileage of the vehicle (kmpl - Kilometres per Litre) is calculated to assess the fuel efficiency of the vehicle. Percentage of closeness is the ratio of actual mileage of the vehicle to its expected mileage. If the percentage of closeness of mileages of each vehicle is greater than that of its average, then the efficiency status of the vehicle is considered as 'Above average' and else, it is considered as 'Below average'

#### Renewable Energy

Biogas plants and solar power plants are installed in the campus which helps offsetting the carbon foot print. The details of these projects are given in the concerned chapters. After analyzing the historical and measured data the following projects are proposed to make the campus carbon neutral. The projects are from energy efficiency and renewable energy. The further additions in the green cover increase will also give positive impact in the carbon mitigation.

## RECOMMENDATIONS

- 1. Implement a utility monitoring program.
  - Allocate staff to carry out meter readings for electricity, waste and water on regular basis
  - Add monitoring data to spreadsheet so results can be viewed graphically
  - Compare with the utility bills meter readings in order to ensure accuracy;
- 2. Consider adopting and implementing a sustainable procurement policy which takes into account the whole life cycle of a product, and make sure environmental issues

are written into tenders when contracting out.

- Consider trialing recycled paper again many recycled brands today, such as Evolve, are just as good as virgin paper.
- 4. Trial the use of re-manufactured (i.e. refilled) ink and toner cartridges rather than purchasing new ones.
- 5. Consider producing some designated 'environmental' pages on the intranet to make it easier for staff to find environmental information. If possible a discussion forum could be set up to allow easy internal communications and staff to make suggestions for environmental improvements.
- 6. Environmental training could be formalized and carried out for all staff. It does not have to be too long or onerous, providing it covers key points, particularly in relation to waste so all staff are aware of the legal requirements. At the very least, environmental information should be included in the induction pack.
- 7. It is strongly recommended that environmental information is also given to students and staff during induction. It is particularly important for them to be aware of what waste they can dispose on site and where the can dispose of it, and what waste streams they must take away with them.
- 8. Consider implementing an environmental management system to incorporate all improvements and monitoring requirements. It does not need to be a complex system certified to any particular standard, merely a way of ensuring that baselines are set and progress is measured. Formation of Environment Policy and communicated to all faculties and other staff.
- 9. Plan for Zero Waste Campus Project
- 10. E-waste monthly inventory be maintained at campus as per E waste rules 2016.
- 11. Water Meter should be installed at institute for monitoring of water consumption per capita.
- 12. Increase in Environmental promotional activities for spreading awareness at campus.
- 13. Environment/Green committee formation for regulating eco-friendly initiatives at campus premises and periphery.

# CONCLUSION

This audit involved extensive consultation with all the campus team, interactions with key personnel on wide range of issues related to Environmental aspects. The audit has identified several observations for making the campus premise more environmental friendly. The recommendations are also mentioned with observations for SGC team to initiate actions.

	Carbon Foot Print		
Sl. No.	Particulars	Remarks	Tonne of $CO_2e$
1	Annual Electricity Consumption (kWh) Grid	68199	55.9
2	Annual LPG Consumption in kg	912	1.4
3	Annual Diesel Consumption (L)	4196	13.4
4	Annual Petrol Consumption (L)	3035	9.4
5	Food Waste in kg/yr.	449	0.3
6	Paper Waste in kg/yr	81	0.0
7	Plastic Waste in kg/yr	50	0.02
8	Total Carbon Foot Print tCO2e/yr		80.5

However, there is scope for further improvement, particularly in relation to waste minimization and energy monitoring. By implementing a basic environmental management system, current good practice can be formalized and a framework can be set up for monitoring, implementation of action plans and continual improvement.

The audit team observed that the overall site is maintained well from environmental perspective. There is no major observations but few things are important to initiate urgently are waste management records by monthly inventory of hazardous waste, rainwater harvesting recharge; water balance cycle and periodic inspection of buildings; environment policy and initiation of composting at campus.

#### NATURE CAMP 2018

Venue: Vazhachal Forest Range

Date: 12.03.2018

#### Report

A nature camp was organized by DES in Collaboration with the department of social forestry, Ernakulam, Kerala and nature club of DiST, Angamaly. The journey to the camp site started from DiST Angamaly on 12.3.2018 at 9.00am and reached Vazhachal forest office at 10.30am. There was an orientation session given by Mr. Appachan the retd. ## NATURE CAMP

Venue: Vazhachal

Date: 04.08.2017

The journey started at 8.00am from De Paul Annex campus with 34 NSS volunteers, 19 MSW students, 2 foreign students from James cook university, Australia and 6 faculty members. The team reached the Vazhachal forest range office at 10.30am. Mr. Karim P M the section forest officer of social forestry Angamaly and Mr. Praveen, the Beat forest officer of Vazhachal range welcomed the students cordially and introduced them to the area. Later, an orientation was given to the team by Mr. Appachan P O, Retired section forest range officer, about environmental protection. He discussed in his session about the different kinds of pollution caused to earth water and air and the possible remedies to it. Students clarified their doubts about forest and related topics in this session. Later on, the students were taken into the nearby area where he introduced d fferent species of plants and animals to the students. In addition, he shared with them the basic things one should keep in mind while being in a forest area such as Vazhachal.

The lunch was provided by the forest office and after the lunch the team moved out for trekking to the forest. Since there were recent elephant attacks in the area the team could not go much into the forest. Due to that the students visited Vazhachal waterfalls and Athirappilly waterfalls and spent some time breathing fresh air and playing in the waters. The team thanked everyone who helped them in the camp and returned back at 4pm. A special thanks to Mr. Martin Lowel, Assistant conservator of forest, Edappally and Mr. K T Udayan range forest officer, Edappally for sanctioning this camp. The day was really an entertaining and informative one.

### TALK on 'Towards Tackling Increasing Waste & Plastic Problems'

Report

#### De Paul Institute of Science & Technology, Angamaly

#### REPORT

Waste management is a very important matter in today's society. Due to the rapid and continuous increase in the population, the amount of waste generating is increasing day by day. Moreover, the increase in the amount of waste is affecting the lives of so many people.

Looking into this threat the nature club organized a talk on 'Waste Management' on January 10, 2020. The programme began at 2 pm. The programme was inaugurated by Rev. Fr. George Pottayil VC, Director DiST

The resource person was Mr. Jees Joseph, project coordinator, Welfare Services, Ernakulam. Talk was of one hour

He spoke on , the several methods and techniques through which the waste can be disposed of. Some of these methods are Landfills, Recycling, Composting, and many other techniques. Furthermore, these methods are greatly useful in the process of disposing of the waste without causing any harm to our environment and surroundings.

The talk came to an end by 3.30 pm with a vote of thanks by Vysakh Anil Kumar(MSW 19, batch)

### **NSS Special Camp**

The Special Camp for seven days from 23<sup>rd</sup> to 29<sup>th</sup> was a meaningful one for the goal it achieved and the spirit it created. During the camp NSS volunteers cleaned an irrigation canal. The villagers and all the popular news papers acclaimed the good job well done. There were seminars and classes on various topics including organic farming by the experts. Cultural programmes and classes on personality development helped the volunteers in shaping their personality.

The camp was at Parappuram, Kanjoor Grama Panchayat and was inaugurated by Mr. M P lonappan Kanjoor Grama Panchayath President and Rev. Dr. James Chelapurath V. C was on the chair. Mr Sebastian Paul Vice President and various dignitaries felicitated the inaugural meeting. Asst Prof. Mr. Ajesh T A welcomed the gathering and Asst Prof. Mr. Shameer M A expressed the vote of thanks. "The special camp was a wonderful experience and it changed altogether my attitude towards life" remarked a camper.

#### **Class on Leadership Quality**

NSS units conducted a class on personality development and leadership skills for the NSS volunteers. Renowned resource person and corporate trainer Mr. Deepak Mohan and Mohammed Aslam led the classes.

#### **Class on Organic Farming**

An informative as well as practical class on organic farming was conducted by Mr. Francis(Manager, Aiswaryagram) an agriculturist with a theme of home farming safe food. He demonstrated the various practical method for every home to have some farming.

#### **Classes on Kaliyarang**

A practical class on kaliyarang was conducted by Mr. Arun S Unnithan and Mr. Badusha Mohammed.

### Jaivam 2017 - NSS Special Camp

The Special Camp Jaivam 2017 started from 31<sup>st</sup> Aug 2017 to 6<sup>th</sup> Sep 2017 was a meaningful one for the goal it achieved and the spirit it created. During the camp NSS volunteers conducted an organic survey to literate the people about organic farming. The villagers and all the popular newspapers acclaimed the good job well done. There were seminars and classes on various topics including organic farming by the experts. Cultural programmes and class on organic farming related matters helped the volunteers in shaping their talents.

The camp was at Aymanam Grama Panchayath and was inaugurated by Mr. A K Alichan, Aymanam Grama Panchayath President and Fr. George Pottayil V. C and Dr. Unni C J was on the chair. Ms Sheela Soloman Head Misstress CMS High School Olassa and various dignitaries felicitated the inaugural meeting. Asst Prof. Mr. Ajesh T A welcomed the gathering and Asst Prof. Mr. Shameer M A expressed the vote of thanks. "The special camp was a wonderful experience and it changed altogether my attitude towards life" remarked a camper.

#### **Class on Leadership Quality**

NSS units conducted a class on personality development and leadership skills for the NSS volunteers. Renowned resource person and corporate trainer Mr. Amal Raj and Mr. Nibin Benny led the classes.

#### **Class on Organic Farming**

An informative as well as practical class on organic farming was conducted by Mr. Chandi ward member of Aymanam panchayath an agriculturist with a theme of home farming safe food. He demonstrated the various practical method for every home to have some farming.

#### **Onam Day Celebration at CMS High School Olassa**

On 4<sup>th</sup> September 2018 NSS volunteers celebrated Onam with different games and cultural programs. It was a sumptuous traditional Kerala onam sadya with all variety of curries and payasam.

### **Cleaning the Campus**

NSS volunteers took two days, 02<sup>nd</sup> and 03<sup>rd</sup> October 2018, to clean the college premises. On first day, they cleaned the classrooms and library, Prayer room, lab and auditorium were arranged neatly. There was an initiative by the volunteers to clean toilets, playground, garden and surroundings on the second day of cleaning.

### **NSS Special Camp**

The Special Camp for seven days from 21st to 27th was a meaningful one for the goal it achieved and the spirit it created. During the camp NSS volunteers cleaned an irrigation canal. The villagers and all the popular news papers acclaimed the good job well done. There were seminars and classes on various topics including organic farming by the experts. Cultural programmes and classes on personality development helped the volunteers in shaping their personality.

The camp was at Sreemoolanagaram, Kanjoor Grama Panchayat and was inaugurated by Mr. M P lonappan, Kanjoor Grama Panchayath President and Rev. Fr. George Pottayil V. C was on the chair. Dr Unny C J, Principal DiST and various dignitaries felicitated the inaugural meeting. Asst Prof. Mr. Shameer M A welcomed the gathering and Mr. Eby Joseph Paul expressed the vote of thanks. "The special camp was a wonderful experience and it changed altogether my attitude towards life" remarked a camper.

### **Class on Leadership Quality**

NSS units conducted a class on personality development and leadership skills for the NSS volunteers. Renowned resource person and corporate trainer Mr. Binu Xavier, IELTS trainer, Key institute led the classes.

### **Class on Sex education**

An informative session related with sex education, personnel hygiene, gender difference, and many other matters related with sex topics discussed. The session was handled by Mr. Vinayan Mylanthara.

### Classes on developing life skills

A workshop based on life skill development was handled by Mr. Dintomon P D.

### X'Mas Day Celebration at Old Age Home

On 25<sup>th</sup> Dec 2018 NSS volunteers visited an old age home Karuna Bhavan at Sreemoolanagaram. Volunteers celebrated their Christmas by cutting cake with the members in that old age home. Volunteers arranged various cultural activities with the members. And also they interact with the members.

### **Camp Review Meeting**

There was a review meeting of the Special camp on 27<sup>th</sup> December. The volunteers shared their impressions and reviews of the camp and all of them were very enthusiastic about NSS and were willing to undertake any future projects. The outcome of the camp was

- Positive change in the attitude of volunteers
- Participation with NGOS
- Promotion of people's participation
- Encounter with realities of life
- Promotion of innovative models in campus community partnership

### **Republic day celebration**

NSS volunteers celebrated Republic day. On that day volunteers take an Oath.

### **NSS Special Camp**

The Special Camp for seven days from 20<sup>th</sup> to 26<sup>th</sup> was a meaningful one for the goal it achieved and the spirit it created. During the camp NSS volunteers cleaned an irrigation canal. The villagers and all the popular news papers acclaimed the good job well done. There were seminars and classes on various topics including organic farming by the experts. Cultural programmes and classes on personality development helped the volunteers in shaping their personality.

The camp was at Kunnukara, Kunnukara Grama Panchayat and was inaugurated by Mr. Francis Tharayil, Kunnukara Grama Panchayath President and Rev. Fr. George Pottayil V. C was on the chair. Dr Unny C J, Principal DiST and various dignitaries felicitated the inaugural meeting. Asst Prof. Mr. Shameer M A welcomed the gathering and Mr. Akshay Jomon expressed the vote of thanks. "The special camp was a wonderful experience and it changed altogether my attitude towards life" remarked a camper.

### **Class on Leadership Quality**

NSS units conducted a class on personality development and leadership skills for the NSS volunteers. Renowned resource person and corporate trainer Mr. Binu Xavier, IELTS trainer, Key institute led the classes.

### **Classes on Kaliyarang**

A practical class on kaliyarang was conducted by Mr. Arun S Unnithan and Mr. Badusha Mohammed.

### X'Mas Day Celebration at Kunnukara Grama panchayath

On 25<sup>th</sup> Dec 2019 NSS volunteers visited Kunnukara grama panchayath, volunteers performed a flash mob regarding clean Kunnukara. Volunteers celebrated their Christmas by cutting cake with the members of asha workers, kudumbasree workers, anganvadi teachers and various members present there. And also they interact with the members.

### **NSS Special Camp**

ഡി പോൾ ഇൻസ്റ്റിറ്റ്യൂട്ട് ഓഫ് സയൻസ് ആന്റ് ടെക്നോളജി, അങ്കമാലി

The Special Camp for seven days from 22<sup>st</sup> to 28<sup>th</sup> was a meaningful one for the goal it achieved and the spirit it created. During the camp NSS volunteers cleaned public places in their surroundings. There were seminars and classes on various topics including organic farming by the experts. Cultural programmes and classes on personality development helped the volunteers in shaping their personality.

For the first time the camp was virtual through google meet and was inaugurated by Rev. Fr. George Pottayil V. C and Dr. Unny C J, Principal DiST presided over the meeting. Mr. Anosh Paul HOD school of Commerce and Mr. Sanil kumar P S HOD School of English felicitated the inaugural meeting. Asst Prof. Anju Krishnakumar welcomed the gathering and volunteer secretary Praveen Abraham expressed the vote of thanks. "The special camp was a wonderful experience and it changed altogether my attitude towards life" remarked a camper.

#### Report

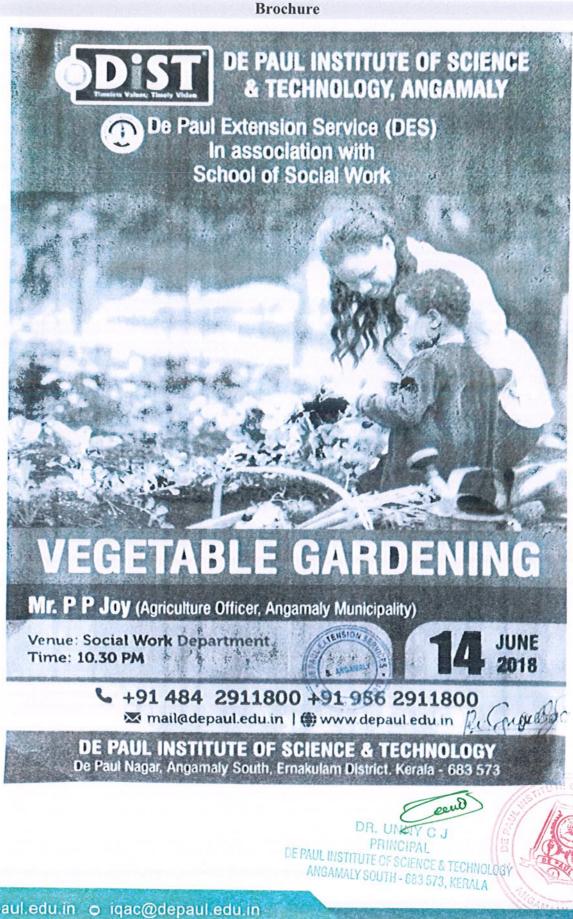

On 14<sup>th</sup> June 2018 DES in collaboration with the MSW Department of De Paul institute of science and technology started the initial phase of vegetable gardening. The agriculture officer of Angamaly Municipality Mr. P P Joy provided the vegetable seedlings for the planting. The MSW students bear the cost of the grow bags and they planted the sapling to grow bags. There are different varieties of vegetable seedlings such as Brinjal, ladies finger, tomato and different varieties of chilies included in the garden. All the plants are being taken care of well. Mr. Jijo Joy (HOD, MSW) Mr. Subin George (President, Nature club) and Mr. Dinto (DES) lead the planting activities.
